

YOGESH T

Full Stack developer | Software Engineer

Linkedin :www.linkedin.com/in/yogesh2203 | Github :<https://github.com/tyogesh-star> | G-mail :tyogesh2314x@gmail.com

PROFESSIONAL SUMMARY :

Final-year IT student with CGPA 9.04, specializing in Full Stack and Java Backend Development. Proficient in building scalable web applications with React, Flask, Java, and MongoDB. Strong foundation in Data Structures & Algorithms, REST APIs, authentication systems, and database management. Experienced in architecting role-based systems and solving complex technical problems. Seeking Full Stack Developer role.

TECHNICAL SKILLS :

- **LANGUAGES** : Java , Python , JavaScript , Sql .
- **FULL STACK** : Html5 , Css3 , Bootstrap , Tailwind , React+vite , Flask , Rest API , Fast API, MongoDB , MySql .
- **TOOLS** : Git , Github , VS code , Postman .

PROJECTS :

VENTURE CONNECT :

REACT | JAVA | MYSQL – 2026(JAN)

- Architected marketplace connecting investors with startup founders; engineered JWT authentication and role-based access control for investors and founders.
- Built idea posting, investment tracking, investor-founder matching, and direct messaging features.
- Prototype Version – under active development, <https://venture-connect-neon.vercel.app/>. Production deployment planned.

STUDMAN-ERP :

REACT| FLASK | MONGO – 2026(MAR)

- Engineered comprehensive college ERP system for managing students, faculty, and academic workflows with secure authentication and role-based access.
- Built attendance tracking, notice board, and academic administration modules with dashboards for faculty and student portals.

LOCO TOUR :

REACT| PYTHON | MONGO – 2026(MAY)

- Developed Python-based tournament management system with team and player registration, live match scheduling, and real-time leaderboards.
- Implemented secure authentication and role-based access for organizers and players with MongoDB backend and production deployment.

CERTIFICATIONS AND INTERNS

- **AIML INTERN** – Attended 7 days intern at code bind technologies where I gained some hands on exposure to python , data preprocessing, and real world software workflows.
- **CERTIFICATIONS** – YARD STICK ACADEMY - java full stack , python full stack.

ACHIEVEMENTS

- Secured 3rd place in **IDEATHON** conducted by **JKKM** college of technology for **Venture Connect**
- Maintained and Successfully deployed full-stack applications .
